Roger,

No we did not receive your letter.

My question and that of the many BFC members affected is simply this - what is the reason for my course being unacceptable to BFC Council? I understand that Graham has now stated that the other trade associations courses are accepted. Until you confirm otherwise, this appears to be nothing more than a vindictive trading restriction.

I think the BFC members affected deserve a reply to this question before the 3<sup>rd</sup> November. I would appreciate hearing from you before our next bulletin goes out on Friday to your members.
